

# Designing with the EWP Shell

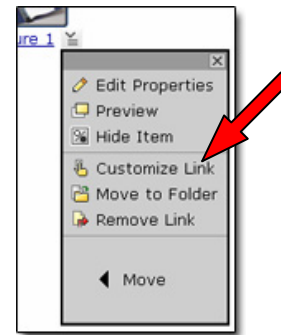

How To Clicksheet 2007

## General – Changing an Icon

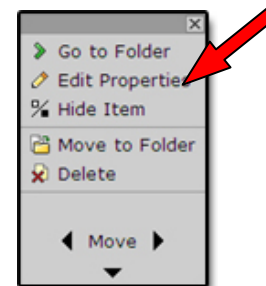

- 1.) Ensure that you are on the **Build** tab
- 2.) Click the **Action Links** drop down icon (☰) next to the icon you want to change.

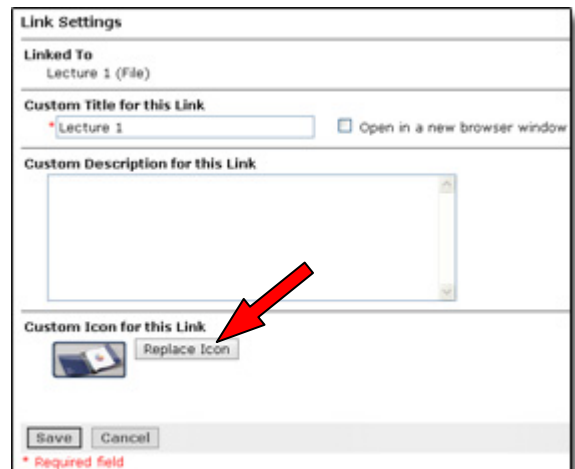

- 3.) Click **Customize Link**

**NOTE:** If **Customize Link** is not an option then click **Edit Properties**

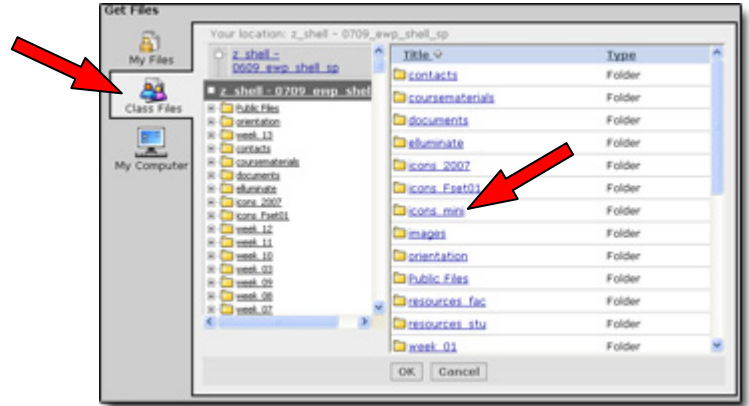

- 4.) Click **Replace Icon**.

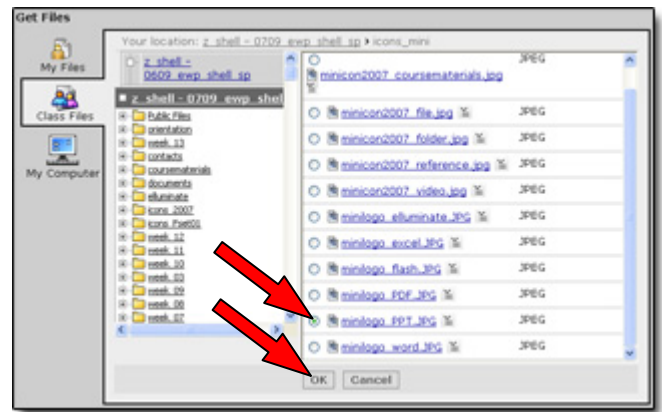

5.) Click **Class Files**

6.) Click the folder where the new icon is located

7.) Select the icon by clicking the circle to the left of its name. Click **OK**.

8.) Click on **Save**.

8.) You have successfully changed the icon.
