STUDENT AWARD PAYMENT AUTHORIZATION

The federal government requires that we report all awards that relate to employment, and that we withhold taxes; the information on this authorization will initiate payment.

If you wish to have the recipient receive the award amount after taxes, payroll will calculate the gross required to be authorized. Tax rates and tax statuses vary so individual calculations are required.

Example Gross-Up Calculation: If you wish the recipient to receive \$500.00 net pay and the recipient must pay ALL taxes, at current rates, the gross up amount charged to the department would be \$866.10. Without gross-up, if a \$500.00 payment were authorized, the recipient would receive \$408.33 after withholding.
(25% Fed, 9.62% NYS, 7.65% FICA, = 42.27%).
