Signature _____ Print Name _____ Date _____

If the total planned effort is split between various organizations, each business manager must sign for their specific organization and must initial the line in which they are authorizing this planned effort.

INSTRUCTIONS

Labor Distribution Change Form

Purpose:

This form is to be used to change the FOAPAL on future labor transactions.

Do not use this form for organizational transfers/reassignments. An employment transaction form is necessary as HR and the budget office must monitor employee reassignments.

Effective Dates:

Section (A)

Enter the date the accounting change should take place.

IMPORTANT

DO NOT backdate the effective date. Be aware that we can not change a period that has already gone through the payroll process. We will enter the change for future payrolls ONLY. You will need to change the past by using the BQY established in the DataWarehouse – “Labor Redistribution Worksheet” and if research funds are involved complete the form “Labor Cost Transfers Involving Sponsored Funds”.

Section (B)

If you enter a To: date (or end date) you must complete Section (B). Payroll will enter a new FOAPAL to be effective as of that date.

FOAPAL

Enter the accounting distribution. The total of all percentages shown must equal 100%.

FOAPAL Components

Fund	(6 Char) REQUIRED
Organization	(4 Char) REQUIRED
Account	(Use a labor expense code) REQUIRED
Program	(Use appropriate code) REQUIRED
Activity	(Use appropriate code) REQUIRED
Location	Optional
