

Graduate Student Forums

Sponsored by the Office of Graduate Education (OGE)

A weekly series of co-curricular seminars and workshops to enhance the academic and personal development of graduate students.

Each week the OGE presents a 'Topic of the Week,' presented by an institutional representative or guest speaker. Student feedback, collected weekly, is consistently positive when asked about the forum's personal value or degree relevance. Students are regularly surveyed for topics they would like to see, so that new, graduate-relevant topics are always emerging. One such was CV Writing, which subsequently has become one of the most popular sessions offered. Here is a look at forums presented from the recent past:
