Data Warehouse Tip Sheet

Opening locally saved BQYs

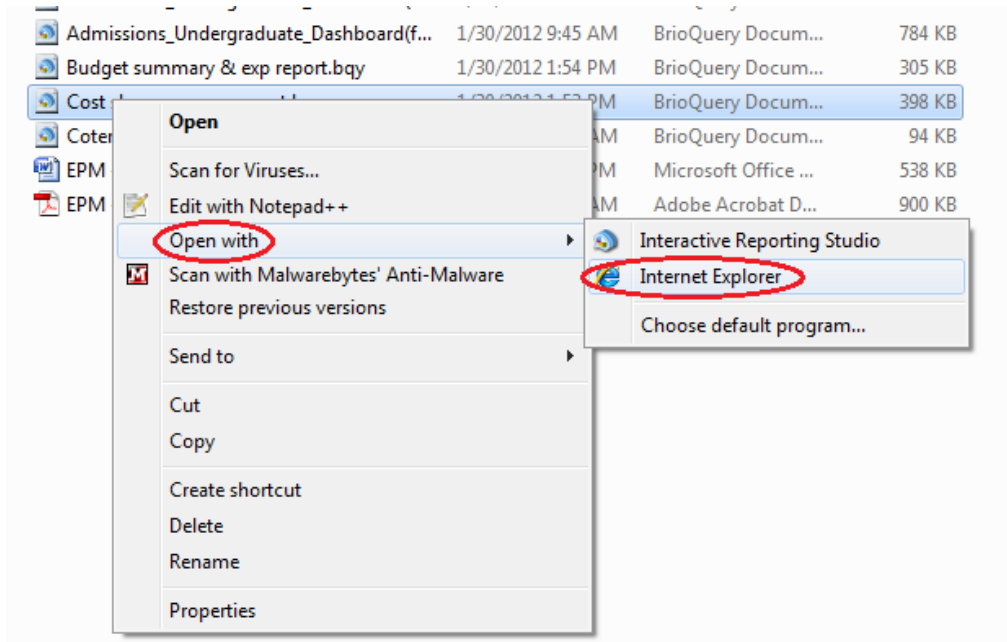

Take the following steps to open a locally saved BQY.

Browser Requirements

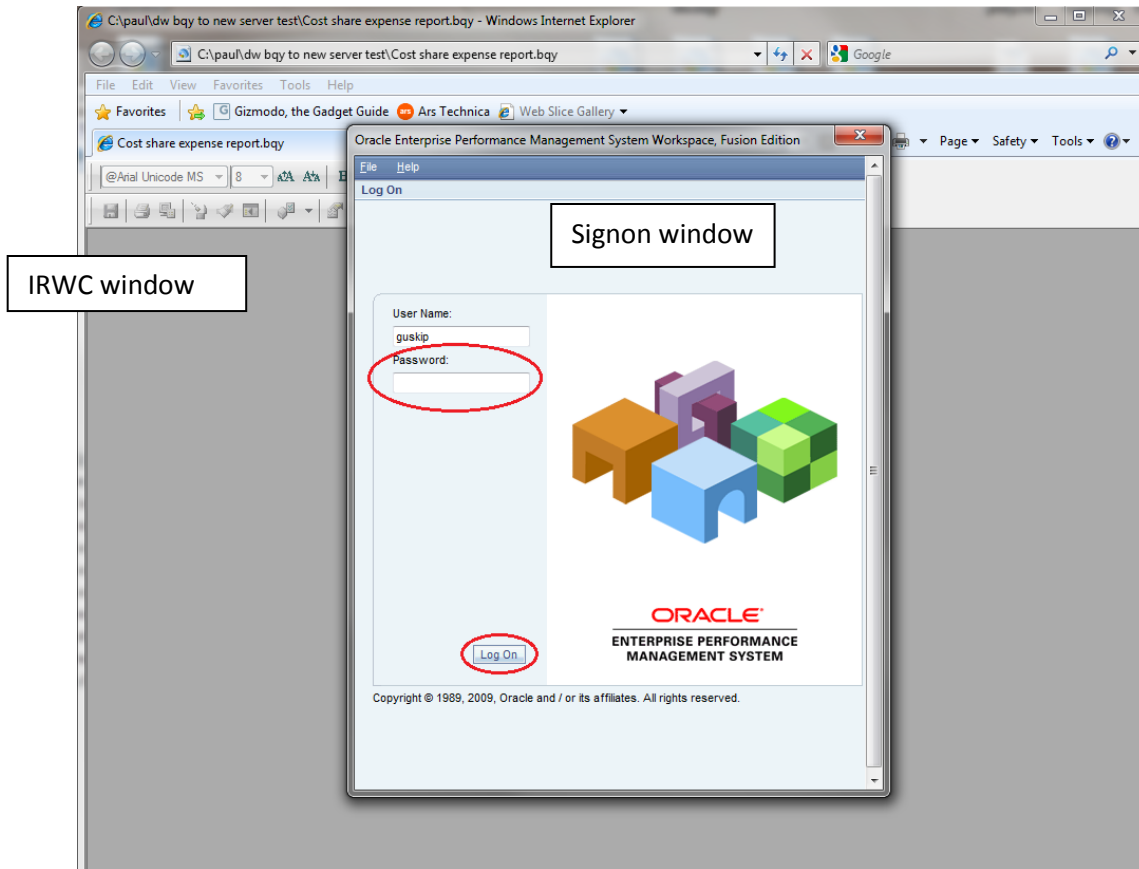

- 1) First, have EPM Interactive Reporting Web Client (IRWC) installed.
- 2) Find the BQY you want to open.

- 3) If IE8 is your default browser, you can double click the file. If IE8 is not you default browser, you need to Right Click on the file>Open with>Internet Explorer

- 4) Two windows will then open, the IRWC window and a signon window. You should enter your password and sign onto the EPM portal at this point.

5) You will now be signed onto the EPM portal and able to work with your BQY.
