Laptop, iMac/eMac Security Cable *Installation Instructions*

Locking:

- 1 Loop the cable an immovable object. Slide the lock unit through the loop at the opposite end of the cable.
- 2 Find the security slot on side or back of computer. Make sure the button is on up pushed position. Insert the lock bolt into security slot.
- 3 Push the button in counter clockwise motion until a click is heard. Your computer is now secured.

Unlocking:

- 1 Insert key and turn clockwise until the push button spring out.
- 2 Turn the lock body slightly to clockwise direction to release bolt from security slot.

Three Year Warranty

All products manufactured by Tony Xu Associates are warranted against defects in material and workmanship for a period of 3 years from date of shipment. The liability of Tony Xu & Associates shall be limited to replacing, at its option, any defective units which are returned FOB to seller's plant.
