

# The Fibonacci Function Defined Using Binet's Formula

Selmer Bringsjord; Intro to AI

October 12, 1999

$$f(n) = \frac{1}{\sqrt{5}} \left[ \left( \frac{1 + \sqrt{5}}{2} \right)^{n+1} - \left( \frac{1 - \sqrt{5}}{2} \right)^{n+1} \right]$$
