The 2014 Ebola epidemic is affecting multiple countries in West Africa and certain locations in the United States. The most effective way to protect the Rensselaer community is to be proactive and vigilant. The Institute is taking the following precautionary steps to help all members of the campus community avoid contact with Ebola.

**RENSSELAER TRAVEL RESTRICTIONS**

The following protocols are in effect until further notice:

**STUDENTS:**
- No university authorized travel to the above countries
- Personal travel to or through the above countries: You MUST contact Dean of Students (276-6266) before traveling and you MUST call Student Health Center (276-6287) before returning to campus

**FACULTY & STAFF:**
- No university authorized travel to the above countries
- Personal Travel is strongly discouraged to the above countries. If you still plan to travel:
  - Faculty must contact the Provost (276-6487) before traveling
  - Staff must contact Human Resources (276-6302) before traveling
  - Before returning to campus, Faculty and Staff must be cleared by the Rensselaer occupational physician. Contact Human Resources (276-6302)

**VISITORS:**
- Visitors to either the Troy or Hartford campus from the above countries will be required to contact:
  - Student Visitors: Student Health Center (276-6287)
  - Faculty Visitors: Provost (276-6487)
  - Staff Visitors: Human Resources (276-6302)
- Complete a questionnaire prior to coming to campus. Questionnaires can be obtained from the Student Health Center website: studenthealth.rpi.edu

**DETECTION & PREVENTION**

Have you traveled to or through the restricted countries? Have you had direct contact with an infected person?

**SCREENING REQUIREMENTS:**

- You should be screened if you meet the following requirements:
  - Travel to any of the above countries
  - Accepting visitors from any of the above countries
  - Caring for anyone who has been diagnosed with Ebola in or out of the country

**SYMPTOMS:**

- Fever
- Severe body aches
- Vomiting
- Severe headaches
- Diarrhea
- Unexplained bleeding or bruising
- Abdominal pain

**TRANSMISSION:**

- You can get Ebola from:
  - Direct skin contact with an infected person
  - Touching bodily fluids of an infected person
  - Exposure to contaminated objects, such as needles
- You cannot get Ebola from:
  - Air
  - Water
  - Food

If you have been exposed and need to be screened: STUDENTS – Student Health Center (276-6287); FACULTY/STAFF – Human Resources (276-6302); VISITORS – Student Health Center (276-6287) and complete questionnaire on Student Health Center website: studenthealth.rpi.edu

**CONTACT INFO:**

- Student Health Center: 518-276-6287 or studenthealth.rpi.edu
- Human Resources: 276-6302
